

## The Forgotten (The Shade Trilogy) (Volume 3)

The Island of Manhattan is lost. Six months after the rise of The Speakers, the human race is spiraling towards an extinction event. Portals to The Shade have opened around the globe, scattering what remains of The Family all because of one man, James Langley. Branded a terrorist by the media and a traitor by those closest to him, James Langley is desperately trying to fix the mistakes he made in New York City. Struggling to cope with the loss of friends, James is haunted by the knowledge that he is the true vessel for The Speakers and the seeming inevitability that he will bring about the destruction of humanity. On his own for months, James is reunited with former allies, but they carry with them urgent news; telling James, he is not only the architect of humanity's destruction, but also possesses the potential to become its savior. All James has to do is, harness the darkness raging inside of him. The Forgotten is the exciting conclusion of The Shade Trilogy, a journey through the mind, body, and soul of humanity. Rise up, and set the darkness alight.
